

Q006.1 ETHICAL TRADING POLICY

Medisort recognises that its commercial operations have impacts on its stakeholders. As a socially responsible company, Medisort believes that its stakeholders have a right to expect that:

- Customers who provide Medisort with waste do so under working conditions that are safe and controlled
- Products sourced by Medisort are produced under working conditions that are safe.
- All workers involved in the production and supply of Medisort's services are treated with full consideration to their basic human rights.
- Medisort acts in an ethical manner above that required by basic legal requirements.

Medisort is therefore committed to following and implementing the principles of the Ethical Trading Initiative Base Code.

The Ethical Trading Procedure defines Medisort's commitment to its stakeholders, setting out the measures being taken to ensure that the company is acting in an ethical manner.
